A: PicklePlanner has the capability to prioritize the player who completed the court reservation first. This should eliminate issues we have had in the past when two players were given the same court.

Q: How does Waitlist work?

A: PicklePlanner automatically offers a waitlist feature. Once the maximum number of players for a reservation is reached, additional members can add themselves to the waitlist. must go in and delete yourself from the reservation asap so the next person on the waiting list is notified.
